PROFESSIONAL SUMMARY

Software developer and tech entrepreneur with hands-on experience across the full software development lifecycle, including user research, UI/UX design, full-stack development, machine learning and product deployment. Currently leads a team at Shudu Connections at The Innovation Hub building an SME incubation management platform, and regularly meets with clients and presents to stakeholders. Completed second-year modules of a BSc in Information Technology (Data Science) at Eduvos (final-year modules outstanding) and holds professional certifications in data science, cloud architecture and cybersecurity. Technical expertise spans React, Next.js, Angular, .NET, Node/Express, Python, machine learning, predictive modelling and UI/UX design.

WORK EXPERIENCE

Shudu Connections (Innovation Hub) | Software Developer Intern, Team Lead

2026 - Present

- Lead a small development team building **TractionLog**, an SME incubation management platform using Angular and Firebase.
- Develop full-stack features across frontend interfaces, backend logic, REST APIs and database functionality.
- Contribute to system architecture, product design, UI/UX and technical decision-making throughout the development lifecycle, and explain trade-offs clearly to both technical and non-technical stakeholders.
- Hold meetings with clients and stakeholders to gather requirements, clarify scope and agree priorities, turning business needs into technical tasks for the team.
- Lead presentations and product demonstrations to clients, incubator staff and programme stakeholders, walking non-technical audiences through progress, features and decisions, and acting on their feedback.
- Build role-based dashboards and data-driven functionality aligned with user and business requirements.
- Manage Git-based workflows, code collaboration, debugging and iterative feature delivery; coordinate team activities and support technical problem-solving.
- **Technologies:** Angular | TypeScript | Firebase | REST APIs | Git | UI/UX | Full-Stack Development

Shoprite | Senior Department Assistant (Part-Time)

Nov 2024 - Mar 2026

- Managed inventory processes and quality control, maintaining accuracy and adherence to operational standards.
- Supported day-to-day operations in a fast-paced environment with strong organisation, reliability and attention to detail.
- Collaborated with team members to resolve operational issues; balanced part-time work with technical development and studies.

Eduvos Midrand Campus | Student Representative Council, SRC

Jan 2023 - Dec 2024

- Represented student interests in academic and institutional matters, engaging stakeholders to communicate needs and resolve issues.
 - Coordinated student initiatives and campus engagement activities, strengthening project coordination and execution skills.
 - Collaborated with diverse stakeholders and student groups while balancing leadership with academic studies.
-

SELECTED PROJECTS

- **TractionLog** (Shudu Connections): Angular and Firebase platform with role-based dashboards, REST APIs and Firestore data model.
 - **CashCram**: student financial-literacy and funding-access platform; Top-13 finalist in NWU's 2026 Pitch Your Business Competition. cash-cram.vercel.app
 - **TCP**: React Native / Expo / Supabase parish member app for iOS, Android and web, with row-level security. tcp-tau.vercel.app
 - **Kasi Grid**: offline-capable PWA for township loadshedding status, outage reports and resource sharing, in four languages.
 - **VariantPrior** and **TB Screening Triage**: Python tools for rare-disease variant ranking and chest X-ray triage (DenseNet121, Grad-CAM).
 - More projects: github.com/Unsolvedstar
-

EDUCATION

Eduvos Midrand Campus | BSc Information Technology (Data Science)

Jan 2023 - Dec 2024 (final-year modules outstanding)

- **Relevant modules:** Computer Network and Security, Database Systems Design, Implementation and Management, Software Process, Architecture, Design & Quality Assurance, Programming in Python, Systems Analysis and Design
 - **Other modules:** Information Systems, Human Computer Interaction, Introduction to Programming, Procedural Programming
-

CERTIFICATIONS

- IBM Data Science Professional Certificate (Python, SQL, data analysis, visualisation, methodology), IBM, 2025
 - Cloud Architecture (Distinction); Cybersecurity Certificate (Distinction), Upskillist, 2026
 - SQL Data Analysis Path; R Data Analysis Path; Mathematics for Data Science, Codecademy, 2025
 - Analyze Financial Data with Python; Software Engineering for Data Scientists, Codecademy, 2025
 - Machine Learning (Python) and Generative AI, currently learning
-

TECHNICAL SKILLS

- **Languages:** Python, SQL, R, Java, C#, JavaScript, TypeScript, HTML, CSS
 - **Frontend:** React.js, Next.js, Angular 18, Tailwind CSS, Angular Material
 - **Backend & APIs:** REST APIs, GraphQL, ASP.NET Core (.NET 9), Entity Framework Core, Express, NestJS, FastAPI, Socket.IO/SignalR, Firebase Cloud Functions
 - **Databases:** PostgreSQL, Firestore, SQLite
 - **Data Science & ML:** Pandas, NumPy, Matplotlib, Scikit-learn, PyTorch, TensorFlow/Keras, Streamlit, ApexCharts, Recharts; predictive modelling, feature engineering, statistical analysis, computer vision (CNNs, Grad-CAM, MediaPipe)
 - **AI Integration:** Google Gemini API, Firebase Genkit
 - **Cloud & DevOps:** Firebase (Auth, Firestore, Storage, Hosting), AWS (S3, Cognito, Polly), Docker, GitHub Actions, Vercel, Render, Linux
 - **UI/UX Design:** Wireframing, design systems and style guides, responsive design, dashboards and data visualisation
 - **Tools:** Git & GitHub, VS Code, Jupyter Notebook, Raspberry Pi/IoT
-

CAREER HIGHLIGHTS

- Top-13 finalist, North-West University's 2026 Pitch Your Business Competition (CashCram)
- Featured on SABC 1's Daily Theta for YANDASM
- Featured on Radio Pulpit's Heart to Heart for CashCram: [Top 20 interview](#) | [Top 13 interview](#)
